### ABOUT ME

I'm Oladele Boluwatife (Tea), a Full-Stack Engineer (MERN) with a strong foundation in frontend and backend development. My tech journey began at age 16 when I co-built a school social platform, which sparked my passion for software development. After completing my BSc in Animal and Environmental Biology, I transitioned fully into tech, focusing on JavaScript, React, Node.js, Express.js, and MongoDB. I bring hands-on experience building real-world applications, problem-solving, and collaborating with teams — and I'm eager to apply my skills to deliver impactful solutions and grow as a developer.

### WORK EXPERIENCE

#### SQI College of ICT

Senior level | Web-development Tutor  
Ibadan , Nigeria  
2025-08-01 | 2025-09-01

Taught Introduction to HTML, CSS, JavaScript, and AI  
Guided students through foundational programming concepts, encouraging problem-solving and logical thinking at an early stage.  
Delivered hands-on lessons in HTML, CSS, JavaScript, and introductory AI, ensuring concepts were accessible and engaging for young learners.  
Supported participants in building simple real-world applications, boosting their practical coding skills and confidence.

#### Hotel SuperBrain AI

Mid level | Data Specialist  
California , United States  
2025-07-01 | 2025-08-01

I worked on preparing a dataset for the U.S. hotel industry that was used to train an AI knowledge base. My main task was to collect, clean, and organize the data in a way that made it easy for the engineering team to use.

I ended up curating and structuring over 2,500 records in Google Sheets, and I made sure to include verified source links so the information was accurate and reliable.

This dataset helped improve the AI's reasoning ability and made the product development process faster since the team could seamlessly plug the data into their workflow.

## Verstronet IT Solutions

Internship & Graduate | Frontend web-developer  
Abuja FCT , Nigeria  
2024-04-01 | 2025-01-01

Frontend Web Development Intern (React)

Gained hands-on experience in modern frontend development with React, focusing on building responsive and dynamic user interfaces.

Developed and refined projects using React, JavaScript, HTML, and CSS, applying best practices in component-based design.

Collaborated with mentors and peers to solve coding challenges, implement feedback, and strengthen technical skills.

Delivered functional web components and applications while continuously learning, earning rewards and recognition for progress.

## EDUCATION

---

### Verstronet IT Solutions

Degree | Frontend Web Development Certification

I worked as a Frontend Web Development Intern, mainly focusing on React. During the internship, I got real hands-on experience building responsive and dynamic user interfaces. I practiced with React, JavaScript, HTML, and CSS, and learned how to apply component-based design in real projects.

I also worked closely with mentors and other interns – solving coding challenges, applying feedback, and growing my technical skills along the way. By the end, I was able to deliver functional web components and applications, and I even got recognized for the progress I made as I kept learning and building.

### SQI College of ICT, Ibadan

Degree | Full-Stack Web Development Certification (MERN Stack)

I completed a Full-Stack Web Development Certification (MERN Stack) at SQI College of ICT, Ibadan in 2025. During the program, I learned both frontend and backend development. On the frontend, I worked with React, JavaScript, HTML, CSS, and UI/UX basics. On the backend, I got hands-on with Node.js, Express.js, and MongoDB, building out real applications.

I also practiced putting everything together – building end-to-end projects with the MERN stack, using Git/GitHub for version control, debugging, and learning how to deploy applications properly. It gave me solid, practical experience building full web applications from scratch.

## JOB SKILLS

Figma

Git/Gitlab

Debugging and Testing

JavaScript

Firebase

UI/UX Implementation

React.js

Node.js

Clean Code

Git Version Control

## LANGUAGE SKILLS

English

## CERTIFICATES & AWARDS

2nd position | wema hackahol/sc> 6.0 | UI Ibadan: Award | 2025
